DETAILED ACTION

1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Koithan et al teach a method for making-up threaded connections wherein the torque and number of turns are measured *during* the make-up process; however, the reference does not qualify as prior art based on the filing date. Snider et al is the parent application for the above reference, but does not contain reference to the subject matter of the current invention.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shane Bomar whose telephone number is 571-272-7026. The examiner can normally be reached on Monday - Thursday from 6:30am to 4:00pm. The examiner can also be reached on alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Bagnell can be reached on 571-272-6999. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
